STAT

Dear [redacted]

STAT

I desire, in my capacity as Chairman of the Joint Chiefs of Staff Working Party on Ground Intelligence Photography, to express my personal appreciation and the sincere thanks of the Working Party for the warm and generous hospitality accorded our group during our 2, 3, and 4 November visit to your plant.

While I was personally unable to participate in the meeting, the reports I have received on the proceedings have all indicated a very fine job of organization and an intimate comprehension of the interests and problems of the Working Party. The membership is most enthusiastic in their response to the technical presentations given by your staff members and the various guest speakers. I am certain that all of the attending members have returned to their daily tasks with a respect for [redacted] fine manufacturing capability and an equal respect for the demonstrated imagination and ability of your staff.

STAT

The responses of the various Working Party members indicate that many of them will be in contact with various members of your staff in order to more fully examine the implications of your research efforts and your products as they affect the missions of the various Defense components represented in the Working Party.

Again I repeat my expression of appreciation and trust you will relay our collective thanks to the members of your own organization and those other gentlemen who did so much to assure us a successful and rewarding meeting.

Arthur C. Lundahl
